SUMMARY

Frontend Developer skilled in HTML, CSS, JavaScript, and React, with practical experience building responsive web applications. Developed an e-commerce product page focusing on user experience, UI design, and performance. Comfortable working with APIs and databases like MySQL and MongoDB, with a solid programming base in Java. Focused on writing clean code and building scalable, user-friendly interfaces

PROFESSIONAL EXPERIENCE

Software Development Trainee

09 Jun 2025 - 24 Oct 2025

- Frontend-focused developer skilled in HTML, CSS, JavaScript, and React, with experience building responsive web applications and user-friendly interfaces through real-world projects.
- Completed training at KodNest Technologies, gaining strong fundamentals in Java and MySQL, with a clear understanding of application flow, data handling, and basic backend concepts.
- Continuously improving development skills by building projects, focusing on clean code, UI/UX optimization, and learning modern frontend practices to create scalable web applications.

SKILLS

- **Programming Languages:** Java, Python
- **Front-end Technologies:** HTML5, CSS3, JavaScript, React.js
- **Styling & UI:** Responsive Design, Flexbox, CSS Grid
- **Frontend Concepts:** Dom Manipulation
- **Database Technologies:** MySQL, MongoDB
- **Tools & Platform:** Git, GitHub

PROJECTS

E-Commerce Product Page [LINK](#)

- Developed a responsive e-commerce frontend using HTML, CSS JavaScript.
- Implemented product filtering, dynamic UI interactions, and responsive layouts.
- Integrated frontend logic using DOM manipulation and API-based concepts.

OTP VERIFICATION System [LINK](#)

- Developed an OTP verification system with responsive UI and dynamic user interaction using React.js and JavaScript
- Implemented backend-generated OTP validation, resend OTP functionality, and real-time verification handling
- Displayed success and error popups based on OTP validation results to improve user experience.

Leveraging ML and Natural Language Processing for Evaluation of Subjective Responses [LINK](#)

- Developed an automated system for evaluating subjective answers using Machine Learning and NLP, applying Word2Vec and Word Mover's Distance for semantic similarity and training an RNN model to achieve accurate, consistent grading while reducing manual evaluation effort

MovieHub – Movie Search & Trailer [LINK](#)

- Developed a responsive movie application using React.js and TMDB REST API for real-time movie data fetching and search functionality
- Implemented search functionality, category filtering, and interactive UI rendering.
- Integrated YouTube trailer redirection functionality for instant movie trailer access, Designed mobile-friendly responsive layouts for better user experience.

CERTIFICATIONS

- **Front-end Web Development – MotionCut** [LINK](#)
- **Full Stack Development Certification - Kodnest Technologies** [LINK](#)

EDUCATION

Madanapalle Institute of Technology and Science

B.Tech in Data Science, 2021-2025, CGPA: 7.5

Sri Chaitanya Junior College, Vijayawada

Intermediate, 2019-2021, CGPA: 8.7
